POWERING LIFE

ABOUT US

Founded in 2006 with the mission of becoming a main supplier of metal products and industrial services, PT Kreatif Sheet Metal Solusi changed its name in 2013 to PT Powerindo Prima Perkasa or Powerindo. This motivated Powerindo to expand its reach by involving in the fabrication of electrical equipment and electricity distribution.

During the first year of its establishment, Powerindo has achieved a significant milestone by being the first manufacturer in Indonesia to produce electrical components made of polymer.

Every year, Powerindo endeavors to improve its work in order to meet the increasing demand of the world amidst the fast-paced growth of technology and infrastructure. This commitment is demonstrated by the introduction of new products such as electric vehicle charging stations and mobile e-house prefabricated units by Powerindo.

PAC EV CHARGER

WIFI CONNECTION TO INTERNET

3G/4G/GPRS connection to internet

OUR MISSION

Making all-level innovations of electricity distribution products to meet the evolution of customer needs efficiently and in a solutive manner

Implementing continuous improvements to the Quality Management System in accordance to ISO 9001 standards

Achieve customer satisfaction for solving their problems on a long term basis

OUR VISION

To be the best manufacturer of metal products and electrical equipment in terms of quality, reliability and service at competitive prices, and prioritizing work safety that is free from artificial and natural disasters as well

**POWERING
LIFE**

COMPANY CORE VALUES

- 1** Continue to improve hospitality, competence and punctuality of customer service.
- 2** Implement periodic reviews of company targets that have had implemented and gained its success.
- 3** Continuously make improvements and renewal to the management system.
- 4** Cultivating every human resources into qualified individuals who are disciplined, competent, have a strong work ethic.
- 5** Optimizing the use of the company's hardware and software assets to support the realization of the company's vision.
- 6** Always maintain environmental sustainability for the next generation.

COMPANY MILESTONE

2018

Launched SPM certified High Voltage Polymer Isolators, Cubicle Units and Mobile Cables, ev Charging Stations and e-House

Manufactures Filling Station products Public Electricity (SPLU), Tower Substation, Kiosk Substation, Stacking Substation

2017

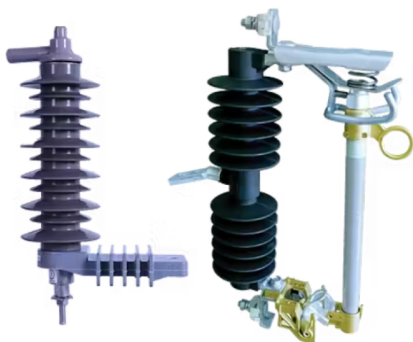

2016

Product development panel Measuring Devices, Limits, Equipment both for Direct and Indirect Measurements

Manufactures Polymer Products For Voltage Networks Medium (20kV) with IEC Standards that have been certified by LMK

2015

2013

Manufactures Lightning Arrester and Medium Voltage Fuse Cut Out

Officially founded on October 5

2006

MADE IN INDONESIA

PRODUCT LINEUPS

e-House

Mobile Substation

Our Mobile Substation is the perfect temporary power solution to support your activities.

With various of products available:

- Unit Gardu Bergerak (UGB) / Mobile Substation
- Unit Kabel Bergerak (UKB) / Mobile Cable Trailer
- Unit Cubicle Kabel Bergerak (UCKB) / Mobile Switch gear and Cable Trailer
- Hydraulic Moveable Compact Substation

Permanent Substation

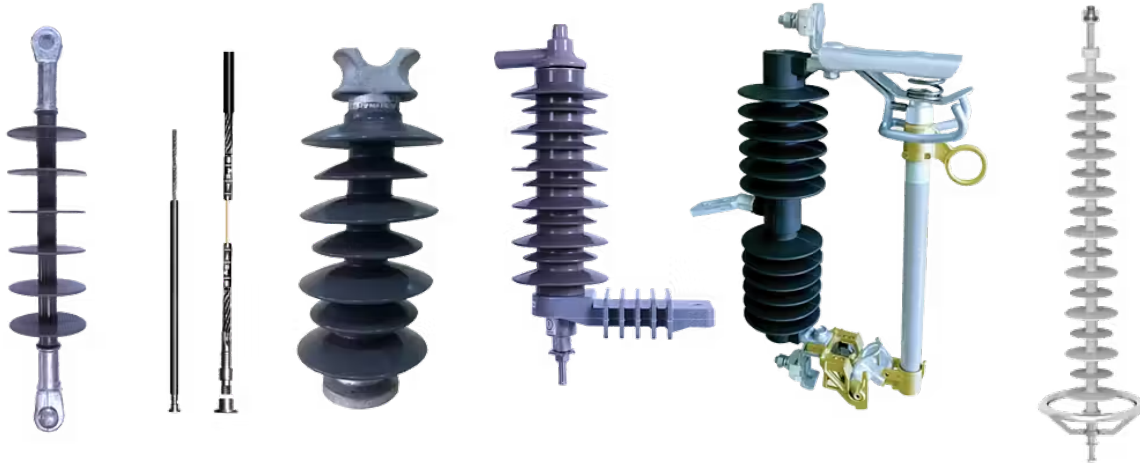

These product are perfect for densely populated public areas which require small footprint installations.

With various of products available:

- Gardu Menara
- Gardu Susun
- Gardu Kios
- SPLU Type Hook
- SPLU Type Standing

PRODUCT LINEUPS

MV Line Post, Surge Arrester, FCO, HV Insulator

We manufacture high quality polymer insulator and protection for MV and HV overhead distribution lines. Polymer material offers hydrophobic qualities, excellent tracking, prevent erosion, light weight, durable and easy to carry.

Variation MV product:

- Line Post 24kV
- Dead End 24kV
- Fuse Cut Out 100A and 200A
- Surge Arrester 21kV, 24kV and 10kA

Variation HV product:

- HV Insulator 70kV
- HV Insulator 150kV, 120kN and 210kN with Corona Ring
- HV Insulator 275kV, 210kN with Corona Ring

PRODUCT LINEUPS

Metal Sheet and Distribution Panel

We manufacture high quality and durable Metal sheet and products panels that connect electricity from transformers that will be used to homes or industries for ready-to-use electricity. The price of an electrical panel is determined by size, material, model, as well as specifications.

Variation Distribution Panel product:

- APP TL
- APP L
- APP TM
- PHBTR 4 JURUSAN
- PHBTR 2 JURUSAN
- MDBP

PRODUCT LINEUPS

EV Charger

We also provide many options for AC EV Charging and DC Fast Charging suitable for both electric cars and electric buses.

Our integrated system EV Charging installation and after sales support surely meets clients needs with short lead time.

Variation AC Charger product:

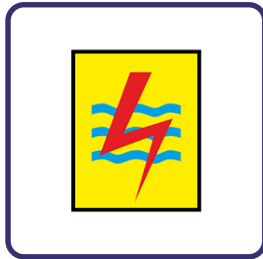

- AC.CORE.1SC
- AC.CORE.2SC
- AC.WCN.1SC
- AC006

Variation DC Charger product:

- BDC.2.SC
- EV.AX
- EVDX.2.SC
- EVDX.3.SC
- PAC
